PERIMETER ARCHITECTURE

THE BOSS

The elements of great design are analysed, balanced and fused together to create fence and gate architecture that meets the essential equation of style, security and safety.

THE BOSS

STEEL RAKING PANEL

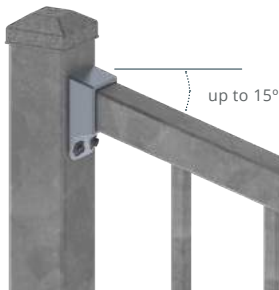

Balustrade compliance, durability and rakability make Boss panels ideal for residential housing developments and other infrastructure projects.

Raking up to 15 degrees with raking aluminium tube brackets and up to 30 deg (2 rail only) with raking brackets.

Balustrade compliant at 2.4m post centers with PS1 certificates available on the website.

New improved powder coating process with three layers of protection – zinc rich primer, epoxy sealant and uv-stable satin black powder coat extend the lifespan of this similar to that of a hot dip galvanised panel.

Raking Brackets

TECHNICAL SPECIFICATIONS

- **Width :** 2.380m
- **Rails :** Pre-galvanised steel 40 x 40mm SHS
- **Pickets :** Pre-galvanised steel 16x16mm SHS with 105mm centers
- **Fixings :** Aluminium raking tube brackets (15deg) and tek screws included

Custom design Orbison panels and gates can be made to your specification.

THE BOSS GATE DESIGN

STYLE + VERSATILITY + DURABILITY

Type	Width
Pedestrian Gate	< 1.2m Leaf
Swing Gate	< 4m Leaf
Sliding Gate	< 6m Opening
Cantilever Gate	< 5m Opening
